alexandra arboleda political party: Bankrupt Representation and Party System Collapse

Jana Morgan, 2011-11-30 In recent decades, Bolivia, Colombia, Italy, and Venezuela have all faced the turmoil and democratic crisis of party system collapse. In Bankrupt Representation and Party System Collapse, Jana Morgan analyzes the causes of such collapse. She does so through a detailed examination of Venezuela's traumatic party system decay as well as comparative analysis of seven other countries. Collapse occurs when the party system as a whole is unable to provide adequate linkage between society and the state, failing to furnish programmatic representation, integration of major societal interests, or clientelist exchanges. Linkage decays when party systems face challenges that jeopardize their core strategies at the same time that they are constrained in their ability to adapt and to confront these threats. If this decay is unchecked and linkage of all sorts fails, then the bankrupt party system collapses.

alexandra arboleda political party: *The Limits of Judicialization* Sandra Botero, Daniel M. Brinks, Ezequiel A. Gonzalez-Ocantos, 2022-08-25 Latin America was one of the earliest and most enthusiastic adopters of what has come to be known as the judicialization of politics - the use of law and legal institutions as tools of social contestation to curb the abuse of power in government, resolve policy disputes, and enforce and expand civil, political, and socio-economic rights. Almost forty years into this experiment, *The Limits of Judicialization* brings together a cross-disciplinary group of scholars to assess the role that law and courts play in Latin American politics. Featuring studies of hot-button topics including abortion, state violence, judicial corruption, and corruption prosecutions, this volume argues that the institutional and cultural changes that empowered courts, what the editors call the 'judicialization superstructure,' often fall short of the promise of greater accountability and rights protection. Illustrative and expansive, this volume offers a truly interdisciplinary analysis of the limits of judicialized politics.

Applebaum's answer. —Timothy Snyder, author of *On Tyranny* The Pulitzer Prize-winning historian explains, with electrifying clarity, why elites in democracies around the world are turning toward nationalism and authoritarianism. From the United States and Britain to continental Europe and beyond, liberal democracy is under siege, while authoritarianism is on the rise. In *Twilight of Democracy*, Anne Applebaum, an award-winning historian of Soviet atrocities who was one of the first American journalists to raise an alarm about antidemocratic trends in the West, explains the lure of nationalism and autocracy. In this captivating essay, she contends that political systems with radically simple beliefs are inherently appealing, especially when they benefit the loyal to the exclusion of everyone else. Elegantly written and urgently argued, *Twilight of Democracy* is a brilliant dissection of a world-shaking shift and a stirring glimpse of the road back to democratic values.

alexandra arboleda political party: *Restructuring Domination* Catherine M. Conaghan, 2010-11-23 The industrial development of Ecuador has made fortunes for some, but has largely bypassed the general population. Armed by its new power, the bourgeoisie has captured state mechanisms for its own advancement, leading to the paradox of a democratic authoritarianism. In this study, Catherine M. Conaghan views the crucial differences between the social and economic changes in newly developed Latin American nations and those of the southern cone. Using Ecuador as her case study, she shows how industrial growth has given birth to an exclusive, ingrown bourgeoisie that is highly dependent on the state and foreign capital and is increasingly alienated from the peasants and urban poor.

A polemical history of municipal socialism in London -- and an argument for turning this capitalist capital red again. London is conventionally seen as merely a combination of the financial centre in the City and the centre of governmental power in Westminster, a uniquely capitalist capital city. This book is about the third London - a social democratic twentieth-century metropolis, a pioneer in council housing, public enterprise, socialist design, radical local democracy and multiculturalism. This book charts the development of this municipal power base under leaders from Herbert Morrison to Ken Livingstone, and its destruction in 1986, leaving a gap which has been only very inadequately filled by the Greater London Authority under Livingstone, Boris Johnson and Sadiq Khan. Opposing currently fashionable bullshit about an imaginary metropolitan elite, this book makes a case for London pride on the left, and makes an argument for using that pride as a weapon against a government of suburban landlords that ruthlessly exploits Londoners.

alexandra arboleda political party: Spain, a Global History Luis Francisco Martinez Montes, 2018-11-12 From the late fifteenth to the nineteenth centuries, the Hispanic Monarchy was one of the largest and most diverse political communities known in history. At its apogee, it stretched from the Castilian plateau to the high peaks of the Andes; from the cosmopolitan cities of Seville, Naples, or Mexico City to Santa Fe and San Francisco; from Brussels to Buenos Aires and from Milan to Manila. During those centuries, Spain left its imprint across vast continents and distant oceans contributing in no minor way to the emergence of our globalised era. This was true not only in an economic sense—the Hispano-American silver peso transported across the Atlantic and the Pacific by the Spanish fleets was arguably the first global currency, thus facilitating the creation of a world economic system—but intellectually and artistically as well. The most extraordinary cultural exchanges took place in practically every corner of the Hispanic world, no matter how distant from the metropolis. At various times a descendant of the Aztec nobility was translating a Baroque play into Nahuatl to the delight of an Amerindian and mixed audience in the market of Tlatelolco; an Andalusian Dominican priest was writing the first Western grammar of the Chinese language in Fuzhou, a Chinese city that enjoyed a trade monopoly with the Spanish Philippines; a Franciscan friar was composing a piece of polyphonic music with lyrics in Quechua to be played in a church decorated with Moorish-style ceilings in a Peruvian valley; or a multi-ethnic team of Amerindian and Spanish naturalists was describing in Latin, Spanish and local vernacular languages thousands of medicinal plants, animals and minerals previously unknown to the West. And, most probably, at the same time that one of those exchanges were happening, the members of the School of Salamanca were laying the foundations of modern international law or formulating some of the first modern theories of price, value and money, Cervantes was writing *Don Quixote*, Velázquez was painting *Las Meninas*, or Goya was exposing both the dark and bright sides of the European Enlightenment. Actually, whenever we contemplate the galleries devoted to Velázquez, El Greco, Zurbarán, Murillo or Goya in the Prado Museum in Madrid; when we visit the National Palace in Mexico City, a mission in California, a Jesuit church in Rome or the Intramuros quarter in Manila; or when we hear Spanish being spoken in a myriad of accents in the streets of San Francisco, New Orleans or Manhattan we are experiencing some of the past and present fruits of an always vibrant and still expanding cultural community. As the reader can infer by now, this book is about how Spain and the larger Hispanic world have contributed to world history and in particular to the history of civilisation, not only at the zenith of the Hispanic Monarchy but throughout a much longer span of time.

alexandra arboleda political party: Of Love and Other Passions Guiomar Dueñas-Vargas, 2015-06-01 In *Of Love and Other Passions* Guiomar Dueñas-Vargas delves into the world of emotions among the bourgeois elite in Bogotá from the end of the colonial period to 1870. While most studies of the period focus solely on the country's political activity, Dueñas-Vargas shows how Colombia's social, cultural, and political changes transformed the meaning of love, which contributed to the evolution of new models of femininity and masculinity. By examining sources such as personal letters and diaries, Dueñas-Vargas presents the emotional profiles of families and couples, demonstrating how their conduct challenged the established order. As lovers insisted on choosing their own mates rather than marrying spouses selected by their parents, they undermined the patriarchal structure of Colombian society. Such decisions unveil the many functions women assumed in both public and private life and how they participated in the invention of a nation.

alexandra arboleda political party: Converso Non-Conformism in Early Modern Spain Kevin Ingram, 2018-12-06 This book examines the effects of Jewish conversions to Christianity in late medieval Spanish society. Ingram focuses on these converts and their descendants (known as conversos) not as Judaizers, but as Christian humanists, mystics and evangelists, who attempt to create a new society based on quietist religious practice, merit, and toleration. His narrative takes the reader on a journey from the late fourteenth-century conversions and the first blood purity laws (designed to marginalize conversos), through the early sixteenth-century Erasmian and radical mystical movements, to a Counter-Reformation environment in which conversos become the advocates for pacifism and concordance. His account ends at the court of Philip IV, where growing intolerance towards Madrid's converso courtiers is subtly attacked by Spain's greatest painter, Diego Velázquez, in his work, *Los Borrachos*. Finally, Ingram examines the historiography of early modern Spain, in which he argues the converso reform phenomenon continues to be underexplored.

alexandra arboleda political party: Why Race Still Matters Alana Lentin, 2020-04-22 'Why are you making this about race?' This question is repeated daily in public and in the media. Calling someone racist in these times of mounting white supremacy seems to be a worse insult than racism itself. In our supposedly post-racial society, surely it's time to stop talking about race? This powerful refutation is a call to notice not just when and how race still matters but when, how and why it is said not to matter. Race critical scholar Alana Lentin argues that society is in urgent need of developing the skills of racial literacy, by jettisoning the idea that race is something and unveiling what race does as a key technology of modern rule, hidden in plain sight. Weaving together international examples, she eviscerates misconceptions such as reverse racism and the newfound acceptability of 'race realism', bursts the 'I'm not racist, but' justification, complicates the common criticisms of identity politics and warns against using concerns about antisemitism as a proxy for antiracism. Dominant voices in society suggest we are talking too much about race. Lentin shows why we actually need to talk about it more and how in doing so we can act to make it matter less.

alexandra arboleda political party: Rainforest Tony Juniper, 2019-09-19 Rainforests have long been recognized as hotspots of biodiversity—but they are crucial for our planet in other surprising ways. Not only do these fascinating ecosystems thrive in rainy regions, they create rain themselves, and this moisture is spread around the globe. Rainforests across the world have a powerful and concrete impact, reaching as far as America’s Great Plains and central Europe. In *Rainforest: Dispatches from Earth’s Most Vital Frontlines*, a prominent conservationist provides a comprehensive view of the crucial roles rainforests serve, the state of the world’s rainforests today, and the inspirational efforts underway to save them. In *Rainforest*, Tony Juniper draws upon decades of work in rainforest conservation. He brings readers along on his journeys, from the thriving forests of Costa Rica to Indonesia, where palm oil plantations have supplanted much of the former rainforest. Despite many ominous trends, Juniper sees hope for rainforests and those who rely upon them, thanks to developments like new international agreements, corporate deforestation policies, and movements from local and Indigenous communities. As climate change intensifies, we have already begun to see the effects of rainforest destruction on the planet at large. *Rainforest* provides a detailed and wide-ranging look at the health and future of these vital ecosystems. Throughout this evocative book, Juniper argues that in saving rainforests, we save ourselves, too.

alexandra arboleda political party: Refugee Protection and the Role of Law Susan Kneebone, Dallah Stevens, Loretta Baldassar, 2014-06-27 Sixty years on from the signing of the Refugee Convention, forced migration and refugee movements continue to raise global concerns for hosting states and regions, for countries of origin, for humanitarian organisations on the ground, and, of course, for the refugee. This edited volume is framed around two themes which go to the core of contemporary ‘refugeehood’: protection and identity. It analyses how the issue of refugee identity is shaped by and responds to the legal regime of refugee protection in contemporary times. The book

investigates the premise that there is a narrowing of protection space in many countries and many highly visible incidents of refoulement. It argues that 'Protection', which is a core focus of the Refugee Convention, appears to be under threat, as there are many gaps and inconsistencies in practice. Contributors to the volume, who include Erika Feller, Elspeth Guild, Hélène Lambert and Roger Zetter, look at the relevant issues from the perspective of a number of different disciplines including law, politics, sociology, and anthropology. The chapters examine the link between identity and protection as a basis for understanding how the Refugee Convention has been and is being applied in policy and practice. The situation in a number of jurisdictions and regions in Europe, North America, South East Asia, Africa and the Middle East is explored in order to ask the question does jurisprudence under the Refugee Convention need better coordination and how successful is oversight of the Convention?
