alvarez and marsal interview: Why Are There Snowblowers in Miami? Steven D. Goldstein, 2016-09-06 Whether it's having snowblowers for sale in a place where it never snows or a more pervasive issue—like having so many meetings scheduled there's no time left to actually solve any problems—dysfunction within large organizations is so prevalent that most people either accept it as an inevitable fact of corporate life or assume someone else will deal with it. But must it be this way? Goldstein's answer to this is a resounding No! In Why Are There Snowblowers in Miami?, he explains the nature of dysfunction present in most companies and other organizations, why it occurs, and most importantly, what leaders, at all levels, can do to tackle these issues and improve performance. As a senior executive for a major department store chain, Steve Goldstein was shocked to find snowblowers for sale at the company's Miami store. When Goldstein asked a salesman on the floor how long this had been going on, he replied, "I've been here for thirty years, and we've been getting them since I've been here." For Goldstein, this one snowblower experience crystallizes all the dysfunction he has seen in business over the course of his career. A seasoned business leader with more than three decades of experience, he has discovered that almost all dysfunction is caused by a lack of engagement, and that it is fixable. Goldstein outlines his unique Five Principles of Engagement and demonstrates how top-level leaders can—and should—use them to improve the way they interact with their teams, employees, and customers. He offers pragmatic, proven techniques for solving problems most leaders face: including a revolutionary time-saving meeting model; a new process for making more efficient decisions—with all participants having greater accountability; a new system that impels leaders to really know their employees and customers; and other ground-breaking tools. Inspiring, entertaining and refreshingly honest, Why Are There Snowblowers in Miami? is filled with true stories from the author's own experience as well as anecdotes and insights culled from interviews he has conducted with some of the world's most influential CEOs.

From these real-life examples readers will learn how understanding and utilizing the Five Principles of Engagement can lead to powerful and positive change in their own organizations—and in their lives.

alvarez and marsal interview: The Fed and Lehman Brothers Laurence M. Ball, 2018-06-07 The bankruptcy of the investment bank Lehman Brothers was the pivotal event of the 2008 financial crisis and the Great Recession that followed. Ever since the bankruptcy, there has been heated debate about why the Federal Reserve did not rescue Lehman in the same way it rescued other financial institutions, such as Bear Stearns and AIG. The Fed's leaders from that time, especially former Chairman Ben Bernanke, have strongly asserted that they lacked the legal authority to save Lehman because it did not have adequate collateral for the loan it needed to survive. Based on a meticulous four-year study of the Lehman case, *The Fed and Lehman Brothers* debunks the official narrative of the crisis. It shows that in reality, the Fed could have rescued Lehman but officials chose not to because of political pressures and because they underestimated the damage that the bankruptcy would do to the economy. The compelling story of the Lehman collapse will interest anyone who cares about what caused the financial crisis, whether the leaders of the Federal Reserve have given accurate accounts of their actions, and how the Fed can prevent future financial disasters.

alvarez and marsal interview: Glass House Brian Alexander, 2017-02-14 For readers of *Hillbilly Elegy* and *Strangers in Their Own Land* WINNER OF THE OHIOANA BOOK AWARDS AND FINALIST FOR THE 87TH CALIFORNIA BOOK AWARDS [NAMED A BEST/MOST ANTICIPATED BOOK OF 2017 BY: New York Post • Newsweek • The Week • Bustle • Books by the Banks Book Festival • Bookauthority.com The Wall Street Journal: A devastating portrait...For anyone wondering why swing-state America voted against the establishment in 2016, Mr. Alexander supplies plenty of answers. Laura Miller, Slate: This book hunts bigger game. Reads like an odd?and oddly satisfying?fusion of George Packer's *The Unwinding* and one of Michael Lewis' real-life financial thrillers. The New Yorker : Does a remarkable job. Beth Macy, author of *Factory Man*: This book should be required reading for people trying to understand Trumpism, inequality, and the sad state of a needlessly wrecked rural America. I wish I had written it. In 1947, Forbes magazine declared Lancaster, Ohio the epitome of the all-American town. Today it is damaged, discouraged, and fighting for its future. In *Glass House*, journalist Brian Alexander uses the story of one town to show how seeds sown 35 years ago have sprouted to give us Trumpism, inequality, and an eroding national cohesion. The Anchor Hocking Glass Company, once the world's largest maker of glass tableware, was the base on which Lancaster's society was built. As *Glass House* unfolds, bankruptcy looms. With access to the company and its leaders, and Lancaster's citizens, Alexander shows how financial engineering took hold in the 1980s, accelerated in the 21st Century, and wrecked the company. We follow CEO Sam Solomon, an African-American leading the nearly all-white town's biggest private employer, as he tries to rescue the company from the New York private equity firm that hired him. Meanwhile, Alexander goes behind the scenes, entwined with the lives of residents as they wrestle with heroin, politics, high-interest lenders, low wage jobs, technology, and the new demands of American life: people like Brian Gossett, the fourth generation to work at Anchor Hocking; Joe Piccolo, first-time director of the annual music festival who discovers the town relies on him, and it, for salvation; Jason Roach, who police believed may have been Lancaster's biggest drug dealer; and Eric Brown, a local football hero-turned-cop who comes to realize that he can never arrest Lancaster's real problems.

alvarez and marsal interview: Resisting Racism and Promoting Equity Through Community-Engaged Social Action Luis Mirón, Paul Green, 2022-10-19 This book challenges pre-service and in-service educators to reflect critically on their assumptions and engage in praxis promoting racial and social equity. Grounded in policy contexts, historical understandings, and

critical theories, this book describes innovative community-engaged approaches to resisting racism and promoting equity and features reflections and personal narratives from partners in change—including on-the-ground activists, voices from younger and older generations, educators, and first-time writers. Fueled by the ideology of white supremacy for over four centuries that whites matter more than Blacks, the authors argue that racial inequities exacerbated during the Trump administration and the legacy of neo-liberal policies dating to the New Federalism fiercely necessitate invoking community-engaged strategies to advance equity. This book advocates for collaboration among schools, community organizations, businesses, university centers, and community activists to address historically pressing issues, including systemic racism, declining educational opportunities, limited access to ongoing health care, and the decline of civility in public life.

alvarez and marsal interview: *The Professional Standards of Executive Remuneration Consultants* Calvin Jackson, 2023-05-01 Love them or hate them, executive remuneration consultants are key players in remuneration committees' pay determination processes. This book concerns the professional standards of executive remuneration consultants (and their 'in-house' counterparts; for example, Human Resources Director and Head of Reward) in providing remuneration committee advisory services. The author is a 25-year 'veteran' executive remuneration consultant, having worked around the world in this capacity (particularly in the financial services sector). This book is based on a qualitative empirical doctoral research exercise, involving 53 participants in the UK executive pay scene (including regulators, institutional shareholder bodies, proxy advisors, remuneration committees' chairs/members, executive remuneration consultants and in-house executive reward specialists). The objective was to formulate conclusions that could be used to the benefit of UK practice and contribute to the relevant academic scholarship on executive remuneration consultants. The research covered 18 aspects, ranging from an examination of the independence of such consultants to whether there might be a specialised accreditation/qualification and/or licence to practise regime covering their services. It provides novel insights into this previously under-researched area of corporate governance/financial regulation. This book will be of interest to those involved in the UK executive remuneration scene, whether government, regulators or any of the other parties mentioned already (plus academics in universities and business schools). It is hoped too that overseas remuneration regimes that have respects in common with the UK's will find this book useful.

alvarez and marsal interview: The Cult of We Eliot Brown, Maureen Farrell, 2022-03-15 WALL STREET JOURNAL BESTSELLER • A FINANCIAL TIMES, FORTUNE, AND NPR BEST BOOK OF THE YEAR • “The riveting, definitive account of WeWork, one of the wildest business stories of our time.”—Matt Levine, Money Stuff columnist, Bloomberg Opinion The definitive story of the rise and fall of WeWork (also depicted in the upcoming Apple TV+ series *WeCrashed*, starring Jared Leto and Anne Hathaway), by the real-life journalists whose Wall Street Journal reporting rocked the company and exposed a financial system drunk on the elixir of Silicon Valley innovation. LONGLISTED FOR THE FINANCIAL TIMES AND MCKINSEY BUSINESS BOOK OF THE YEAR AWARD WeWork would be worth \$10 trillion, more than any other company in the world. It wasn't just an office space provider. It was a tech company—an AI startup, even. Its WeGrow schools and WeLive residences would revolutionize education and housing. One day, mused founder Adam Neumann, a Middle East peace accord would be signed in a WeWork. The company might help colonize Mars. And Neumann would become the world's first trillionaire. This was the vision of Neumann and his primary cheerleader, SoftBank's Masayoshi Son. In hindsight, their ambition for the company, whose primary business was subletting desks in slickly designed offices, seems like madness. Why did so many intelligent people—from venture capitalists to Wall Street elite—fall for the hype? And how did WeWork go so wrong? In little more than a decade, Neumann transformed himself from a struggling baby clothes salesman into the charismatic, hard-partying CEO of a company worth \$47 billion—on paper. With his long hair and feel-good mantras, the six-foot-five Israeli transplant looked the part of a messianic truth teller. Investors swooned, and billions poured in. Neumann dined with the CEOs of JPMorgan and Goldman Sachs, entertaining a parade of power brokers desperate to get a slice of what he was selling: the country's most valuable startup, a once-in-a-lifetime opportunity and a generation-defining moment. Soon, however, WeWork was burning through cash faster than Neumann could bring it in. From his private jet, sometimes clouded with marijuana smoke, he scoured the globe for more capital. Then, as WeWork readied a Hail Mary IPO, it all fell apart. Nearly \$40 billion of value vaporized in one of corporate America's most spectacular meltdowns. Peppered with eye-popping, never-before-reported details, *The Cult of We* is the gripping story of careless and often absurd people—and the financial system they have made.

What Ward uncovers is a much bigger story than Lehman losing at the risky game of collateralized debt obligations, swaps, and leverage. A can't put it down page turner that opens the world of Wall Street to view unlike any book since *Bonfire of the Vanities*, except that *The Devil's Casino* isn't fiction. Details what went on behind-the-scenes the weekend Lehman Brothers failed, as well as inside Lehman during the twenty years preceding it Describes the feudal culture that proved both Lehman's strength and its Achilles' heel Written by Vicky Ward, one of today's most connected business and finance writers On Wall Street, Lehman Brothers was cheekily known as the cat with nine lives. But as *The Devil's Casino* documents, this cat pushed its luck too far and died?the victim of men and women blinded by arrogance.

alvarez and marsal interview: Clutch Paul Sullivan, 2010-09-02 Is clutch performance innate-or can it be learned? Sooner or later everyone encounters a situation in which the stakes are high and the outcome is crucial. And even top performers can crumble when faced with such extreme pressure. Consider the CEO who panics in a desperate attempt to shore up his company's earnings, the veteran politician who grows overconfident and loses to the upstart candidate, the quarterback who carries his team to the Super Bowl but falls apart in the final quarter. All of them choked. But then there are the performers who thrive under such conditions: the ER doctor racing the clock to save someone's life, the lieutenant who leads his platoon to victory after an ambush, the young attorney who refuses to be intimidated in court and wins the crucial case. These people are clutch, and their ability to overcome extreme pressure consistently and beat the toughest odds fascinates us. How do they do it? According to Paul Sullivan, clutch performance does not stem from an innate ability. It's a learned skill: the art of operating in high-stress situations as if they were everyday conditions. Even some of the most experienced and talented performers lack this skill-but Sullivan shows that anyone can develop it. Drawing on new research and interviews with stars across a range of fields, Sullivan uncovers the shared traits that define clutch performers and explains how anyone can apply their strategies. He builds his case through many inspiring true stories, including those of * a skinny sergeant who saved his battalion in Iraq; * a rookie baseball player who pitched his team into its first World Series; * an eccentric psychiatrist who trained a group of financial traders to become the best in the world; * a lawyer who struggled in school but became one of the top litigators in America. Full of powerful advice and real-world examples, *Clutch* will show you how to overcome extreme pressure to achieve greatness.

alvarez and marsal interview: Cyprus Bail-in, The: Policy Lessons From The Cyprus Economic Crisis Alexander Michaelides, Athanasios Orphanides, 2016-02-29 On June 28th 2012, the small island of Cyprus became the fifth government to request an economic bail-out from the Eurozone after losing access to international capital markets. Less than a year later, a €10 billion second rescue deal was agreed upon — an unprecedented agreement that bailed in creditors of Cyprus' two largest banks, and triggered an economic crisis that the nation still struggles to recover from today. This resourceful collection of essays provides a thorough and in depth analysis of how Cyprus reached the point of failure and what lessons this experience holds for future economic crises. The various perspectives collectively address unanswered questions, including whether the bail-in can be considered successful, why the recession was less severe than expected, and what conclusions can be drawn about stress-testing exercises across borders. Focusing on one of the (proportionately) largest crises in financial history, the case study will prove essential to policy-makers and politicians, especially in the euro area.

alvarez and marsal interview: Management auf Zeit in Deutschland Johannes Fues, 2010-05-10 GELEITWORT Die Begriffe Management auf Zeit oder Interim Management stehen für ein Phänomen, das in Deutschland zunehmend an Beachtung gewinnt. Hinweise darauf sind nicht nur ein steigendes Marktvolumen, sondern auch die Herausbildung sichtbarer Marktstrukturen wie beispielsweise die Gründung von Zusammenschlüssen und Verbänden. Dennoch ist der deutsche Markt im Vergleich zu anderen europäischen Märkten, z.B. den Niederlanden, noch relativ wenig entwickelt. Obgleich viele Unternehmen, u.a. durch Krisensituationen, Druck zu Veränderungen ausgesetzt sind, ist Management auf Zeit als Gestaltungsmittel organisationalen Wandels hier noch wenig etabliert. Diese Entwicklungsdefizite dienen dem Verfasser der vorliegenden Arbeit als Ausgangspunkt, weitere Entwicklungspotentiale im Sinne einer „Professionalisierung“ auszuloten. Zentrales inhaltliches Merkmal von Management auf Zeit ist die Ausübung einer Managementaufgabe für eine begrenzte Zeitspanne durch Externe. Konzeptionell wird Management auf Zeit, wie Unternehmens-, Rechtsberatung, Wirtschaftsprüfung u.a., in der vorliegenden Arbeit als spezifische Ausprägung einer sogenannten professionellen Dienstleistung betrachtet. Dieser Zugang fokussiert Wissen, Beziehungskompetenz und Reputation als wesentliche Ressourcen im Rahmen der individuellen Leistungserbringung. Der Verfasser identifiziert im Rahmen seiner Arbeit strategische Ansatzpunkte zur Professionalisierung. Dabei erweist sich der Begriff der Professionalisierung in seiner Verwendung in unterschiedlichen Kontexten als außerordentlich vielschichtig.

alvarez and marsal interview: Intellectuals and the State in Twentieth-Century Mexico Roderic Ai Camp, 1986 In developing countries, the extent to which intellectuals disengage themselves in state activities has widespread consequences for the social, political, and economic development of those societies. Roderic Camps' examination of intellectuals in Mexico is the first study of a Latin American country to detail the structure of intellectual life, rather than merely considering intellectual ideas. Camp has used original sources, including extensive interviews, to provide new data about the evolution of leading Mexican intellectuals and their relationship to politics and politicians since 1920.

alvarez and marsal interview: Building Power, Breaking Power Jesse Chanin, 2024-04-05

From 1965 to 2005, the United Teachers of New Orleans (UTNO) defied the South's conservative anti-union efforts to become the largest local in Louisiana. Jesse Chanin argues that UTNO accomplished and maintained its strength through strong community support, addressing a Black middle-class political agenda, internal democracy, and drawing on the legacy and tactics of the civil rights movement by combining struggles for racial and economic justice, all under Black leadership and with a majority women and Black membership. However, the devastating effects of Hurricane Katrina provided the state government and local charter school advocates with the opportunity to remake the school system and dismantle the union. Authorities fired 7,500 educators, marking the largest dismissal of Black teaching staff since *Brown v. Board of Education*. Chanin highlights the significant staying power and political, social, and community impact of UTNO, as well as the damaging effects of the charter school movement on educators.

alvarez and marsal interview: Risk Management in Crisis Piotr Jedynak, Sylwia Bąk, 2021-08-19 Risk management is a domain of management which comes to the fore in crisis. This book looks at risk management under crisis conditions in the COVID-19 pandemic context. The book synthesizes existing concepts, strategies, approaches and methods of risk management and provides the results of empirical research on risk and risk management during the COVID-19 pandemic. The research outcome was based on the authors' study on 42 enterprises of different sizes in various sectors, and these firms have either been negatively affected by COVID-19 or have thrived successfully under the new conditions of conducting business activities. The analysis looks at both the impact of the COVID-19 pandemic on the selected enterprises and the risk management measures these enterprises had taken in response to the emerging global trends. The book puts together key factors which could have determined the enterprises' failures and successes. The final part of the book reflects on how firms can build resilience in challenging times and suggests a model for business resilience. alvarez and marsal interview: *The Charter School Solution* Tara Affolter, Jamel Donnor, 2016-06-10 Challenging the popular perception that the free market can objectively ameliorate inequality and markedly improve student academic achievement, this book examines the overly positivistic rhetoric surrounding charter schools. Taking a multifocal approach, this book examines how charter schools reproduce inequality in public education. By linking charter schools to broader social issues and political economic factors, such as neoliberalism, race, and class, *The Charter School Solution* presents a more complete and nuanced assessment of charter schools in the context of the American public education system.

alvarez and marsal interview: *Jumping Over Shadows* Annette Gendler, 2017-04-04 The true story of a German-Jewish love that overcame the burdens of the past. Finalist for the 2017 Book of the Year Award by the Chicago Writers Association "A book that is hard to put down." —Jerusalem Post "This book confirms Annette Gendler as an indispensable Jewish voice for our time. —Yossi Klein Halevi, author of *Like Dreamers* The ghosts of the past haunt a woman's search for herself in

this thoughtful, poignant memoir about the transformative power of love and faith.” —Hillary Jordan, author of *Mudbound*, now a Netflix movie “An exquisitely written conversion story which expounds upon personal and collective identity.” —Washington Independent Review of Books “A compelling, gracefully written memoir about the impact of the past on the present.” —Michael Steinberg, author of *Still Pitching* History was repeating itself when Annette fell in love with Harry, a Jewish man, the son of Holocaust survivors, in Germany in 1985. Her Great-Aunt Resi had been married to a Jew in Czechoslovakia before World War II—a marriage that, while happy, put the entire family in mortal danger once the Nazis took over their hometown in 1938. Annette and Harry’s love, meanwhile, was the ultimate nightmare for Harry’s family. Not only was their son considering marrying a non-Jew, but a German. Weighed down by the burdens of their family histories, Annette and Harry kept their relationship secret for three years, until they could forge a path into the future and create a new life in Chicago. Annette found a spiritual home in Judaism—a choice that paved the way toward acceptance by Harry’s family, and redemption for some of the wounds of her own family’s past.

alvarez and marsal interview: The First Human Ann Gibbons, 2007-04-10 In this dynamic account, award-winning science writer Ann Gibbons chronicles an extraordinary quest to answer the most primal of questions: When and where was the dawn of humankind? Following four intensely competitive international teams of scientists in a heated race to find the “missing link”—the fossil of the earliest human ancestor—Gibbons ventures to Africa, where she encounters a fascinating array of fossil hunters: Tim White, the irreverent Californian who discovered the partial skeleton of a primate that lived 4.4 million years ago in Ethiopia; French paleontologist Michel Brunet, who uncovers a skull in Chad that could date the beginnings of humankind to seven million years ago; and two other groups—one led by zoologist Meave Leakey, the other by British geologist Martin Pickford and his French paleontologist partner, Brigitte Senut—who enter the race with landmark discoveries of their own. Through scrupulous research and vivid first-person reporting, *The First Human* reveals the perils and the promises of fossil hunting on a grand competitive scale.

alvarez and marsal interview: The Purpose of Business Albert Erisman, David Gautschi, 2015-10-07 Business is a vital institution for a flourishing society, but there is mounting concern about its role in distorting wealth distribution, enabling and rewarding unethical behaviour, and despoiling the natural environment. A Consortium was formed in 2009 under the leadership of David Gautschi to bring together academics, business people, and interested members of society from around the world to discuss two questions: what is the purpose of business, and what is the role of the business school in the academy? Consortium Fellows gathered in eight sessions over five years from 29 countries to discuss, debate, and share perspectives on these questions. *The Purpose of Business* is an edited collection drawing from the perspectives of these sessions, with contributors from North America, South America, Europe, and Asia bringing culturally and intellectually diverse perspectives on these critical questions. This multifaceted work offers an exploration of business in relation to religion, art, neuroscience, geopolitics, energy, and beyond to inspire a better understanding of the role of business in the 21st century interconnected world.

alvarez and marsal interview: The Black Box of Governance Sandra Guerra, 2021-09-08 In the world of corporate governance, the board of directors is often viewed as the black box of companies: only the board members who are seated at the meeting table understand how this decision-making machine works. In this book, a board member with over 25 years' experience pulls off the lid and shows both how boards have worked and how they could work. This book is grounded in extensive research in three different surveys: one with more than 100 Brazilian directors, another with 340 board members from 40 countries, and a final one with 103 Brazilian directors serving on 238 boards. It also includes interviews with Ira Millstein, Sir Adrian Cadbury, Robert Monks and Mervyn King. The inner-workings of the board of directors are revealed: • What keeps directors awake at night • Obstacles to efficient decision-making • Behavioral dynamics, both within the board and in relation to the management • Pitfalls that arise from individual and group biases Based on these insights and the author's own consulting and board experience, the book presents a guide to behavioral tools enabling directors and executives to confidently navigate the boardroom, improving interactivity and the efficiency of the decision-making process. Intended for directors and executives who are directly involved in the board's activities, as well as for leaders responsible for strategy implementation, this book provides a behavioral compass for all those interacting with the black box.

alvarez and marsal interview: Wonder Boy Angel Au-Yeung, David Jeans, 2023-04-25 A Financial Times best business book of 2023 In 1998, at the age of 24, Tony Hsieh sold his first company to Microsoft for \$265 million. In 2009, at the age of 35, he sold his e-commerce company, Zappos, to Amazon for \$1.2 billion. In 2020, at the age of 46, he died. Tony Hsieh revolutionized both the tech world and corporate culture. He was a business visionary. He was also a man in search of happiness. So why did it all go so wrong? Tony Hsieh's first successful venture was in middle school, selling personalized buttons. At Harvard, he made a profit compiling and selling study guides. From there, he went on to build the billion-dollar online shoe empire of Zappos. The secret to his success? Making his employees happy. At its peak, Zappos's employee-friendly culture was so famous across the tech industry that it inspired copycats and earned a cult following. Then Hsieh moved the Zappos headquarters to Las Vegas, where he personally funded a nine-figure campaign to revitalize the city's historic downtown area. But as Hsieh fell deeper into his struggles with mental health and drug addiction, the people making up his inner circle began changing from friends to enablers. Drawing on hundreds of interviews with a wide range of people whose lives Hsieh touched,

journalists Angel Au-Yeung and David Jeans craft a rich portrait of a man who was plagued by his eternal search for happiness and ultimately succumbed to his own demons.
