Introduction: The 22nd Special Tactics Squadron (STS) stands as a vital component of Air Force Special Operations Command (AFSOC), representing the pinnacle of airpower integration within the special operations arena. This article will delve into the history, missions, capabilities, and significance of the 22nd STS, highlighting its crucial role in global operations and its unique contributions to national security. Understanding the 22nd Special Tactics Squadron is crucial for grasping the complexities of modern special operations and the evolving nature of warfare.

History of the 22nd Special Tactics Squadron: The lineage of the 22nd STS traces back to the early days of air-ground coordination during World War II. Its predecessors, various Tactical Air Control Parties (TACPs) and Combat Control Teams (CCTs), demonstrated the critical need for specialized airmen capable of operating deep within hostile territory to direct air strikes and coordinate close air support. The evolution of the 22nd STS reflects the continuous adaptation to the changing demands of the battlefield. From its involvement in Vietnam, where its members faced perilous conditions guiding air strikes and rescuing downed pilots, to its current deployments in global hotspots, the 22nd STS has consistently demonstrated exceptional courage and proficiency. The 22nd Special Tactics Squadron has played key roles in various conflicts, earning a reputation for excellence and contributing significantly to mission success. Its history is filled with tales of bravery, innovation, and unwavering commitment to the mission.

Missions and Capabilities of the 22nd Special Tactics Squadron: The 22nd Special Tactics Squadron is a multifaceted unit, encompassing several critical special warfare specialties. These include:

Combat Control (CCT): CCT operators are responsible for establishing and operating airfields in austere environments, controlling air traffic, and providing precision air-ground coordination. The 22nd STS's CCTs are masters of precision strike capabilities, ensuring effective employment of

airpower in complex operational environments. Their skills in advanced navigation, communications, and air traffic control are vital for the success of numerous special operations missions.

**Tactical Air Control Party (TACP):** TACP airmen work closely with ground forces, providing critical air support coordination and battlefield awareness. They act as the crucial link between ground commanders and air assets, ensuring the timely and accurate delivery of airpower. The 22nd STS's TACP operators are trained to operate in high-intensity combat environments, calling in air strikes with pinpoint accuracy.

**Pararescue (PJ):** The 22nd STS also incorporates Pararescue personnel, highly skilled in combat medical treatment, search and rescue, and specialized rescue techniques. These highly-trained medics operate in the most challenging environments, providing life-saving medical care under duress. They are crucial in recovering downed airmen and other personnel in hostile territory.

This combination of specialties within the 22nd Special Tactics Squadron creates a unique synergy, enabling the unit to perform a wide range of missions, including:

**Direct Action:** Participating in offensive operations, capturing high-value targets, and disrupting enemy activities.

**Special Reconnaissance:** Gathering critical intelligence in hostile territories, providing real-time situational awareness.

**Personnel Recovery:** Conducting complex rescue operations to recover downed airmen or other personnel.

**Combat Search and Rescue (CSAR):** Coordinating and executing complex rescue missions in high-threat environments.

**Significance and Relevance of the 22nd Special Tactics Squadron:** The 22nd Special Tactics Squadron's significance lies in its ability to seamlessly integrate airpower into the complex environment of special operations. Their expertise in precision targeting, air traffic control, and close air support is critical to the success of numerous missions. The 22nd STS's contributions extend beyond direct combat operations; their actions often influence strategic decision-making and shape the overall course of operations. The 22nd Special Tactics Squadron operates at the cutting edge of military technology and tactical innovation, constantly adapting to evolving threats and operational challenges. Their expertise and experience are invaluable assets to the U.S. military and its allies.

**Conclusion:** The 22nd Special Tactics Squadron stands as a testament to the effectiveness of highly specialized airpower integration within the special operations community. Its history, diverse capabilities, and pivotal role in numerous conflicts solidify its importance to national security. Understanding the 22nd STS provides crucial insight into the evolving landscape of modern warfare and the critical role of special operations forces in achieving strategic objectives. The dedication and skill of the airmen of the 22nd Special Tactics Squadron continue to make significant contributions to global security.

**22nd special tactics squadron: *Hunting the Caliphate*** Dana J.H. Pittard , Wes J. Bryant, 2019-08-27 In this vivid first-person narrative, a Special Operations Joint Terminal Attack Controller (JTAC) and his commanding general give fascinating and detailed accounts of America's fight against one of the most barbaric insurgencies the world has ever seen. In the summer of 2014, three years after America's full troop withdrawal from the Iraq War, President Barack Obama authorized a small task force to push back into Baghdad. Their mission: Protect the Iraqi capital and U.S. embassy from a rapidly emerging terrorist threat. A plague of brutality, that would come to be known as ISIS, had created a foothold in northwest Iraq and northeast Syria. It had declared itself a Caliphate—an independent nation-state administered by an extreme and cruel form of Islamic law—and was spreading like a newly evolved virus. Soon, a massive and devastating U.S. military response had unfolded. Hear the ground truth on the senior military and political interactions that shaped America's war against ISIS, a war unprecedented in both its methodology and its application of modern military technology. Enter the world of the Strike Cell, secretive operations centers where America's greatest enemies are hunted and killed day and night. Plunge into the realm of the Special Operations JTAC, American warfighters with the highest enemy kill counts on the battlefield. And gain the wisdom of a cumulative half-century of military experience as Dana Pittard and Wes Bryant lay out the path to a sustained victory over ISIS. Mark Bowden Author, Blackhawk Down Somalia, 1999 Individually, they are specially selected, specially trained, and, in support of special operations, almost daily bring American airpower to bear on our nations enemies. Indeed, they are very remarkable warriors, and this book will help many understand why so many of us hold our Combat Controllers in such incredibly high regard. Dr. James G. Roche Secretary of the United States Air Force 2001 - 2005 if you asked what tool of the trade would be the very last they would leave behind, you might be surprised at the answer. You would likely hear that it is not a tool that makes one nervous when it isnt there, but rather a capability that is not organic to a troop of Delta Operators or Navy SEALs Just because you are the best of the best does not mean you are the best at everything. Any Delta operator can vouch for the capabilities of the air force combat controllers, and very rarely goes on a hit without the men who wear the scarlet berets. **22nd special tactics squadron: Special Force** Alastair MacKenzie, 2011-10-30 The exploits of the British Army's elite 22nd Special Air Service Regiment - the regiment of the SAS that forms part of the Regular army - are shrouded in mystery and myths abound about its members. But what is the truth behind the public facade of clinical professionalism? How has such a small regiment attracted so many weighty legends? And what is the purpose of the SAS in the 21st century? *Special Force* provides an original and unusually critical overview of the activities of the SAS from the Malayan Emergency of 1950 to the present day. In the context of a detailed and often controversial analysis of the post-war activities of the Regiment, MacKenzie establishes that the Regiment's almost legendary professional competence is often not backed up by reality. Far from being part of a structured deployment of strategic military assets, MacKenzie argues that the use of the SAS in recent years has been primarily driven by the 'entrepreneurial' actions of a few SAS commanding officers. *Special Force* not only offers a revelatory history of the SAS in the modern period, it is also a disturbing expose of the truth behind the myth. It will be essential reading for anyone with an interest in the British military - past, present and future.

**22nd special tactics squadron: Apollo's Warriors** Michael E. Haas, 1998-05 Presenting a fascinating insider's view of U.S.A.F. special operations, this volume brings to life the critical contributions these forces have made to the exercise of air & space power. Focusing in particular on the period between the Korean War & the Indochina wars of 1950-1979, the accounts of numerous missions are profusely illustrated with photos & maps. Includes a discussion of AF operations in Europe during WWII, as well as profiles of Air Commandos who performed above & beyond the call of duty. Reflects on the need for financial & political support for restoration of the forces. Bibliography. Extensive photos & maps. Charts & tables.

**22nd special tactics squadron: U.S. Air Force Special Tactics** Combat Control School Heritage Foundation, 2022-11-08 The CCT - The Eye of the Storm-series chronicles the exploits of Air Force Special Warfare, Combat Control Teams (CCT). It is told in the form of short stories; many etched by a cocktail of blood, sweat and tears. The Combat Control story began in the de facto Volume I with the appearance of the first CCTs; i.e., command and control teams cobbled together by the WWII U.S. Army Air Force (USAAF) for Operation Varsity. The CCT story continued in Volume II, detailing the 21st Century fight in the Global War on Terrorism (GWOT). Included are two humanitarian missions; operations of epic proportion in Haiti and Japan. In this third volume subtitled - Medal of Honor (MOH) - the CCT story is expanded, incorporating the two previously self-published volumes and adding hundreds of new stories from around the globe. But, with a concentration on operations in southwest Asia; including Afghanistan; now America's longest war. This volume is an all-inclusive compilation presented as a single, premium publication. The diversity of feature stories, subjects and styles present a well-rounded, unbiased look at the CCT's view at "the eye of the storm." Each published PA reporter and volunteer contributor has a by-line in the book. Thanks to all for their remarkable journalistic work. The book is expected to engage a wider-ranging audience of American and allied military elements, families, historians and enthusiasts. More importantly, Medal of Honor celebrates the first-ever award of the Air Force Medal of Honor to a Combat Control patriot and hero. On April 20, 2018 after more than fifteen years technical review and Air Staff deliberation the Medal of Honor for TSgt John Chapman was approved by President Donald Trump. The MOH award ceremonies and associated events are covered in detail near the end of this book. In preparing CCT - The Eye of the Storm - Medal of Honor, the goal was to collect stories from hundreds of sources, written by an even larger band of vetted professionals selected to observe, record and report truths about military units in action. In my mind the U.S. Government Public Affairs Offices were the perfect choice. For that reason, you will find hundreds of PA-generated stories used herein. Through our collective efforts we have published a fair and accurate chronical of USAF Combat Control Team's stories; exploiting the public domain and declassified accounts. This is a documentary of Air Force Combat Control Teams operating at The Eye of the Storm. Subtitled Medal of Honor; it is the most in-depth CCT history ever published.

**22nd special tactics squadron: *The Elite*** Leigh Neville, 2019-11-28 Using rare and previously unpublished images from around the world, *The Elite: The A-Z of Modern Special Operations Forces* is the ultimate guide to the secretive world of modern special operations forces. It sends the reader back in time to operations such as Eagle Claw in Iran and the recapture of the Iranian Embassy in London and then forward to recent operations against al-Shabaab and Islamic State. Entries also detail units ranging from the New Zealand SAS Group to the Polish GROM, and key individuals from Iraq counter-terrorism strategist General Stanley McChrystal to Victoria Cross recipient SASR Corporal Mark Donaldson. Answering questions such as how much the latest four-tube night vision goggles worn by the SEALs in Zero Dark Thirty cost, which pistol is most widely employed by special operators around the world and why, and if SOF still use HALO jumps, this book is the definitive single-source guide to the world's elite special forces.

**22nd special tactics squadron: *Deadly Blue*** Fred PUSHIES, 2009-10-14 The story of any military operation revolves not just around strategies and equipment, but around people. Now for the first time, readers will get an intimate look at the people behind CAS—Close Air Support. Their work is both delicate and deadly, their actions rooted in months of planning and executed with split-second timing. Acting as a bridge between special ops ground troops and lethal air power, CAS demands a skill set unparalleled even among the most elite military forces. But just as important is the mindset, dedication, and daring of a very special brand of Airman. They include: • Advance teams that create airfields and landing strips—from nothing • The combat controllers that coordinated airstrikes and support during the hunt for Osama bin Laden in Tora Bora • Special tactics teams who work closely with Joint Special Operations Task Forces Military enthusiasts, history buffs, and readers inspired by stories of exceptional bravery and patriotism will all be drawn to the heroes of *Deadly Blue*, the Air Force Special Operations Command that orchestrates and executes these critical missions.

**22nd special tactics squadron: Army Officer's Guide** , 2023-10-17 The Army Officer's Guide is the crown jewel of Stackpole's military reference line. First published in 1930, this guide has been continuously revised since then and has become the gold-standard reference for the U.S. Army's officer corps, especially the new second lieutenants commissioned into the army out of West Point and ROTC programs. This edition has been thoroughly revised and updated with the latest information on leadership, training, military justice, promotions, benefits, counseling soldiers, physical fitness, regulations, and much more—everything the officer needs to know in order to do his job well, to advance his career, to navigate the military, and to guide his soldiers on and off the battlefield. Topics include How to train, lead, and counsel troops effectively Tips on how to move along your career as an NCO by continuing education, training, and professional development Information about all the regulations NCOs need to be aware of in carrying out their jobs And much, much more . . . Stackpole has been guiding military officers and soldiers for more than 80 years. Our guides still offer the best advice in the business—better than any other book, better than the internet.

**22nd special tactics squadron: The Praetorian STARShip : the untold story of the Combat Talon** , 2001 Jerry Thigpen's study on the history of the Combat Talon is the first effort to tell the story of this wonderfully capable machine. This weapons system has performed virtually every imaginable tactical event in the spectrum of conflict and by any measure is the most versatile C-130 derivative ever produced. First modified and sent to Southeast Asia (SEA) in 1966 to replace theater unconventional warfare (UW) assets that were limited in both lift capability and speed the Talon I quickly adapted to theater UW tasking including infiltration and resupply and psychological warfare operations into North Vietnam. After spending four years in SEA and maturing into a highly respected UW weapons system the Joint Chief of Staff (JCS) chose the Combat Talon to lead the night low-level raid on the North Vietnamese prison camp at Son Tay. Despite the outcome of the operation the Talon I cemented its reputation as the weapons system of choice for long-range clandestine operations. In the period following the Vietnam War United States Air Force (USAF) special operations gradually lost its political and financial support which was graphically demonstrated in the failed Desert One mission into Iran. Thanks to congressional supporters like Earl Hutto of Florida and Dan Daniel of Virginia funds for aircraft upgrades and military construction projects materialized to meet the ever-increasing threat to our nation. Under the leadership of such committed hard-driven officers as Brenci Uttaro Ferkes Meller and Thigpen the crew force became the most disciplined in our Air Force. It was capable of penetrating hostile airspace at night in a low-level mountainous environment covertly to execute any number of unconventional warfare missions.

**22nd special tactics squadron: No Room for Error** Col. John T. Carney, Benjamin F. Schemmer, 2003-09-30 "John Carney is one of the few heroes I have." --LT. COL. L. H. "BUCKY" BURRUSS, USA (Ret.) Founding member and Deputy Commander of Delta Force When the U.S. Air Force decided to create an elite "special tactics" team in the late 1970s to work in conjunction with special-operations forces combating terrorists and hijackers and defusing explosive international emergencies, John T. Carney was the man they turned to. Since then Carney and the U.S. Air Force Special Tactical units have circled the world on sensitive clandestine missions. They have operated behind enemy lines gathering vital intelligence. They have combated terrorists and overthrown dangerous dictators. They have suffered many times the casualty rate of America's conventional forces. But they have gotten the job done--most recently in stunning victories in the war on terrorism in Afghanistan, which Carney calls "America's first special-operations war." Now, for the first time, Colonel Carney lifts the veil of secrecy and reveals what really goes on inside the special-operations forces that are at the forefront of contemporary warfare. Part memoir, part military history, *No Room for Error* reveals how Carney, after a decade of military service, was handpicked to organize a small, under-funded, classified ad hoc unit known as Brand X, which even his boss knew very little about. Here Carney recounts the challenging missions: the secret reconnaissance in the desert of north-central Iran during the hostage crisis; the simple rescue operation in Grenada that turned into a prolonged bloody struggle. With Operation Just Cause in Panama, the Special Tactical units scored a major success, as they took down the corrupt regime of General Noriega with lightning speed. Desert Storm was another triumph, with Carney's team carrying out vital search-and-rescue missions as well as helping to hunt down mobile Scud missiles deep inside Iraq. Now with the war on terrorism in Afghanistan, special operations have come into their own, and Carney includes a chapter detailing exactly how the Air Force Special Tactics d.c. units have spearheaded the

successful campaign against the Taliban and Al Qaeda. Gripping in its battle scenes, eye-opening in its revelations, No Room for Error is the first insider's account of how special operations are changing the way modern wars are fought. Col. John T. Carney is an airman America can be proud of, and he has written an absolutely superb book.

**22nd special tactics squadron: US Special Operations Forces in Action** Thomas K. Adams, 1998-06-01 Armies in the 1990s are commonly involved in low-level, ill-defined, politically charged, messy situations known collectively as unconventional warfare. **22nd special tactics squadron: Counterinsurgency, Security Forces, and the Identification Problem** Daniel L. Magruder, Jr, 2017-07-28 This book presents a theory and empirical evidence for how security forces can identify militant suspects during counterinsurgency operations. A major oversight on the part of academics and practitioners has been to ignore the critical antecedent issue common to persuasion and coercion counterinsurgency (COIN) approaches: distinguishing friend from foe. This book proposes that the behaviour of security forces influences the likelihood of militant identification during a COIN campaign, and argues that security forces must respect civilian safety in order to create a credible commitment to facilitate collaboration with a population. This distinction is important as conventional wisdom has wrongly assumed that the presence of security forces confers control over terrain or influence over a population. Collaboration between civilian and government actors is the key observable indicator of support in COIN. Paradoxically, this theory accounts for why and how increased risk to government forces in the short term actually improves civilian security in the long run. Counterinsurgency, Security Forces, and the Identification Problem draws on three case studies: the Huk Rebellion in the Philippines post-World War II; Marines Corps' experiences in Vietnam through the Combined Action Program; and Special Operations activities in Iraq after 2003. For military practitioners, the work illustrates the critical precursor to establishing security during counterinsurgency operations. The book also examines the role and limits of modern technology in solving the identification problem. This book will be of interest to students of counterinsurgency, military history, strategic studies, US foreign policy, and security studies in general.

**22nd special tactics squadron: Combat Squadrons of the Air Force; World War II.** United States. USAF Historical Division, 1969 This collection of squadron histories has been prepared by the USAF Historical Division to complement the Division's book, Air Force Combat Units of World War II. The 1,226 units covered by this volume are the combat (tactical) squadrons that were active between 7 December 1941 and 2 September 1945. Each squadron is traced from its beginning through 5 March 1963, the fiftieth anniversary of the organization of the 1st Aero (later Bombardment) Squadron, the first Army unit to be equipped with aircraft for tactical operations. For each squadron there is a statement of the official lineage and data on the unit's assignments, stations, aircraft and missiles, operations, service streamers, campaign participation, decorations, and emblem.

**22nd special tactics squadron: Army Techniques Publication Atp 3-21.8 Infantry Platoon and Squad April 2016** United States Government US Army, CREATESPACE INDEPENDENT PUB, 2016-05-23 This publication, Army Techniques Publication ATP 3-21.8 Infantry Platoon and Squad April 2016, provides the doctrinal framework for all Infantry platoons and squads. It provides techniques for employment of Infantry platoons and squads in conducting decisive actions. The principle audiences for ATP 3-21.8 are commanders, staffs, and leaders who are responsible for planning, preparing, executing, and assessing operations of the Infantry platoon and squad. It serves as an authoritative reference for personnel developing doctrine materiel and force structure, institutional and unit training, and standard operating procedures (SOPs) for Infantry platoon and squad operations. Army Techniques Publication (ATP) 3-21.8 encompasses techniques for the Infantry platoons and squads of the Infantry, Stryker, and Armored brigade combat teams (I, S, and ABCTs). It replaces Field Manual (FM) 3-21.8, published in March 2007, Army Tactics Techniques, and Procedures (ATTP) 3-21.71, published in November 2010, and ATTP 3-21.9, published in December 2010. ATP 3-21.8 provides doctrinal guidance; describes relationships within the platoon and squad; defines organizational roles and functions, capabilities, limitations; and lay outs the responsibilities for platoons and squads during unified land operations. The Infantry platoon and squad is an all-weather, all-terrain unit. Against this backdrop, the Infantry platoon and squad must be ready to adapt to various levels of conflict and peace in various environments. This requires bold, aggressive, resourceful, and adaptive leaders- leaders of character, competence and commitment - who are willing to accept known risks to accomplish the mission. Infantry leaders must use their initiative and make rapid decisions to take advantage of unexpected opportunities. This publication addresses the significant changes in Army doctrinal terminology, concepts, and constructs and proven tactics, techniques, and procedures (TTPs): Chapter 1 - Organization Chapter 2 - Offense Chapter 3 - Defense Chapter 4 - Stability Chapter 5 - Movement Chapter 6 - Patrols and Patrolling Chapter 7 - Sustainment Appendix A describes the process of troop leading procedures (TLPs). Appendix B describes direct fire planning and control. Appendix C describes indirect fire support planning. Appendix D addresses security. Appendix E describes vehicle employment considerations. Appendix F addresses machine gun employment. Appendix G describes and addresses shoulder-launched munitions (SLMs) and close combat missile systems (CCMS). Appendix H describes obstacle reduction and employment. Appendix I covers chemical, biological, radiological, and nuclear (CBRN) operations. Appendix J describes 14 selected battle drills for both the Bradley and Stryker. ATP 3-21.8 applies to the active Army, the U.S. Army National Guard, Army National Guard of the U.S., and the U.S. Army Reserve unless otherwise stated. It is designed for platoon, squad and company level chains of command, company grade officers, senior and junior noncommissioned officers (NCOs), U.S. Army Training and Doctrine Command (TRADOC) institutions and components, and the U.S. Army Special Operations Command.

**22nd special tactics squadron: The Fatal Couple** Julie Bergman , 2023-11-10 Tied up, strangled, then discarded. Going undercover to solve a multitude of murders, will she make it out alive? Evelyn "Mac" McGregor is still grappling with taking a man's life. Six months after the fatal confrontation, the promoted sergeant approaches her recent assignment on a special task force with cautious excitement. And her first order of business is a dead airman pulled out of the water - just like several others. Discovering strange wound patterns that link the corpses together, the sharp-minded investigator follows leads all over the area collecting info... until evidence goes missing. And when clues point to a taboo world of kink, Mac and her rugged boyfriend embark on a covert hunt into dangerous territory. Can she run a cunning psychopath to the ground before more innocents end up in the grave? The Fatal Couple is the exhilarating second book in the Sergeant Evelyn "Mac" McGregor Thriller series. If you like well fleshed-out characters, sexy romance, and powerful twists and turns, then you'll love Julie Bergman's edge-of-the-seat page-turner. Buy The Fatal Couple to stop the kiss of death today!

**22nd special tactics squadron: *You Are Your Own Gym*** Mark Lauren, Joshua Clark, 2011-01-04 From an elite Special Operations physical trainer, an ingeniously simple, rapid-results, do-anywhere program for getting into amazing shape For men and women of all athletic abilities! As the demand for Special Operations military forces has grown over the last decade, elite trainer Mark Lauren has been at the front lines of preparing nearly one thousand soldiers, getting them lean and strong in record time. Now, for regular Joes and Janes, he shares the secret to his amazingly effective regimen—simple exercises that require nothing more than the resistance of your own bodyweight to help you reach the pinnacle of fitness and look better than ever before. Armed with Mark Lauren's motivation techniques, expert training, and nutrition advice, you'll see rapid results by working out just thirty minutes a day, four times a week—whether in your living room, yard, garage, hotel room, or office. Lauren's exercises build more metabolism-enhancing muscle than weightlifting, burn more fat than aerobics, and are safer than both, since bodyweight exercises develop balance and stability and therefore help prevent injuries. Choose your workout level—Basic, 1st Class, Master Class, and Chief Class—and get started, following the clear instructions for 125 exercises that work every muscle from your neck to your ankles. Forget about gym memberships, free weights, and infomercial contraptions. They are all poor substitutes for the world's most advanced fitness machine, the one thing you are never without: your own body.

**22nd special tactics squadron: *Not a Good Day to Die*** Sean Naylor, 2005-03-01 Award-winning combat journalist Sean Naylor reveals a firsthand account of the largest battle fought by American military forces in Afghanistan in an attempt to destroy al-Qaeda and Taliban forces. At dawn on March 2, 2002, America's first major battle of the 21st century began. Over 200 soldiers of the 101st Airborne and 10th Mountain Division flew into Afghanistan's Shah-i-Kot Valley—and into the mouth of a buzz saw. They were about to pay a bloody price for strategic, high-level miscalculations that underestimated the enemy's strength and willingness to fight. Naylor, an eyewitness to the battle, details the failures of military intelligence and planning, while vividly portraying the astonishing heroism of these young, untested US soldiers. Denied the extra support with which they trained, these troops nevertheless proved their worth in brutal combat and prevented an American military disaster.
